

StickIt — Judges' Stand Card

Post this at the judges' stand. Tablets connect here all day.

On every tablet, open Safari and go to:
`http://stickit.local:3001`

...or scan the code. Then tap your role and enter the PIN from the run sheet.

Livestream box (YoloBox) overlay address:

`http:// ____ . ____ . ____ . ____ :3001/overlay`

Write the number in from the Pi's Connection Info page each event morning (menu ! Connection Info). At UniFi venues the number never changes; at Starlink-router venues check it every event day.

No internet needed for scoring. If the internet drops, keep scoring exactly as normal — everything uploads by itself the moment it returns.
