

STICKIT FREESTYLE SCORING

# Chief of Score

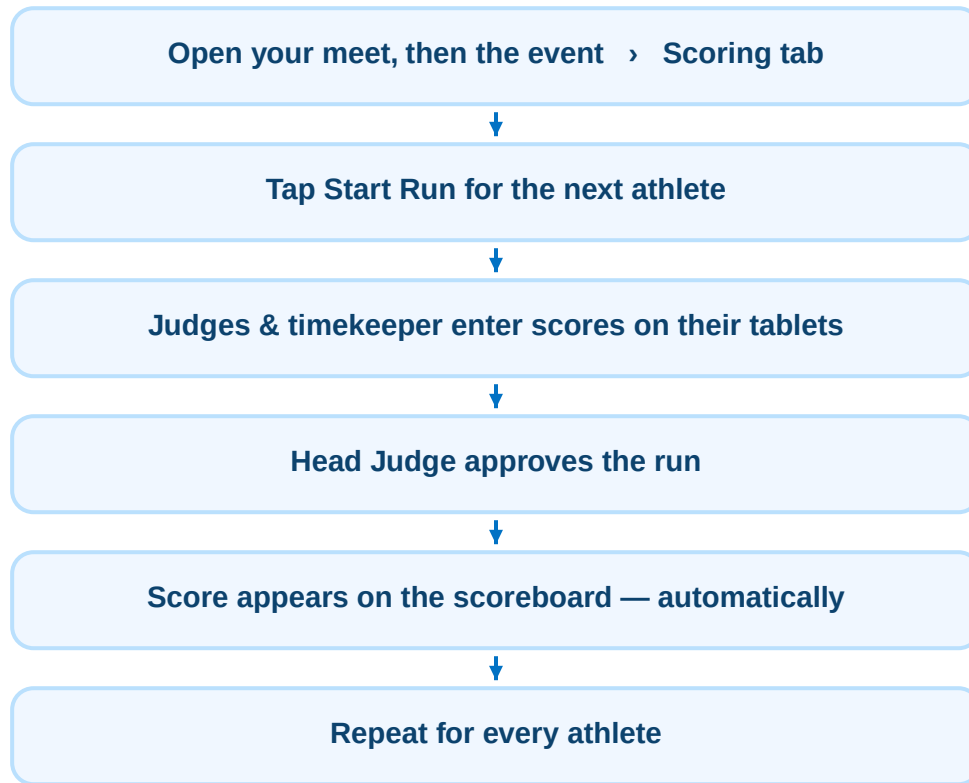

Quick Start Guide

For: The on-site operator running scoring on event day

StickIt v2.6.00

# Your Day at a Glance

The Event Secretary set everything up. Your job is to keep runs flowing.

**GOOD TO KNOW** No Head Judge assigned? Scores finalize on their own as soon as every judge has entered. That is normal for small events.

**TIP** Dual moguls: instead of Start Run you start each MATCH from the Bracket. Aerials: same Start Run flow, judges score each jump.

**TIP** An athlete not starting? Tap the yellow DNS button next to Start Run — it marks them Did Not Start and moves the line along.

# Fixing Things During the Day

---

## 1 Enter scores by hand (Manual Entry)

Tablet died? Scores coming in over the radio? Tap Manual Entry on the Scoring tab and type every judge's score yourself. For moguls there is also a microphone option (Voice Manual Entry) — speak the scores instead of typing.

## 2 Fix a score that already went through

Find the run in the results list and tap Manual Entry / Edit. Correct the number and save — the rankings everywhere update by themselves.

## 3 Mark a run status

**DNS**

didn't start

**DNF**

didn't finish

**DSQ**

disqualified

**NT**

no valid time

## 4 Event-day registration fixes

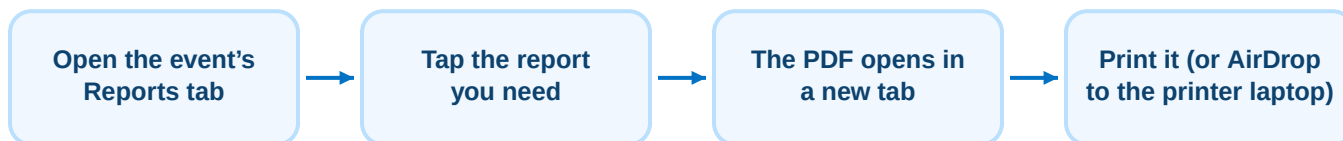

Late athlete? Registration tab > search their name (or add them from the USSS list) > register. Wrong bib? Tap the bib number in the table, type the new one, press Enter. The Event Secretary did the big setup — you only patch.

### CAREFUL

Discipline differences: aerials manual entry asks for Air, Form, and Landing for every judge and every jump. Dual mogul scores are fixed from the bracket (tap the match > Enter/Edit Scores), not from a runs list.

# Printing Reports During the Event

Coaches, TDs, and announcers will all ask. Here is the 10-second answer.

## The reports you will actually print

|                                   |                                                                     |
|-----------------------------------|---------------------------------------------------------------------|
| <b>Start List</b>                 | Post it at the start before the first run.                          |
| <b>Check Sheet (by run order)</b> | Hand to the Head Judge / TD mid-day to verify scores against paper. |
| <b>Event Results — Summary</b>    | Post after every round. Coaches will ask for this one.              |
| <b>Event Results — Detailed</b>   | Full judge-by-judge breakdown when someone questions a score.       |
| <b>Dual Bracket</b>               | Post between dual mogul rounds so athletes know their next match.   |
| <b>Training Day Roster</b>        | If a training day is set up — the list of who may train.            |

**TIP** Print the Results Summary after every round. It takes 20 seconds and saves you twenty “what did she score?” conversations.

# End of Day

---

- 1 Let the Head Judge finalize**  
After the last run is approved, the Head Judge's tablet shows a final review and a Finalize Event button. Once they tap it, the event is marked Complete and the final standings lock in.
- 2 Print the final results**  
Reports tab > Event Results. Post one copy, keep one for the TD packet.
- 3 Export the spreadsheets**  
Reports tab > CSV / Excel export. This is the file the webmaster or points-keeper wants.
- 4 Hand off to the Event Secretary**  
Tell them every event shows Complete. They handle the official USSS results submission and the meet archive from home — that is not your job tonight.

**GOOD TO KNOW** Dual mogul finals run in this order at the end of the day: 7/8 place > 5/6 place > 3/4 place > Championship. The bracket queues them automatically.

**CAREFUL** Made a mistake after finalizing? Only an admin can re-open a completed event (Admin > Events > Re-open). Scores can then be corrected and the event finalized again.
